Dear Readers,

Doll Mag is celebrating a big milestone this summer – **our third birthday!** From our very first issue {which may or may not be buried deep in the archives of Lulu's blog} to the one you're reading right now, the two of us can't believe how far Doll Mag has come since 2011. To celebrate, here are three of the biggest lessons we've learned along the way...

- 1. Doll fans are very supportive.** More often than not, we've found that people who love dolls are incredibly friendly and oh-so kind! In other words? We're talking about you! 😊
- 2. Not everything goes as planned.** We could list all of the times we have had to change an article last minute {i.e. the day of the deadline}, but it all comes down to going with the flow.
- 3. Creative differences can be good.** We certainly don't agree on everything, but at the end of the day, both of us have something to learn from each other!

Have an amazing summer!

XO,

Bella and Lulu 😊

If you were stuck on a

necessities, of course!}?

## Shop Owner Spotlight

Shop Owner: Anjanette // Shop: Love Ellie Bean {Etsy}

### How do you come up with the ideas for your pieces?

Usually, I find fabric I love first and wait for the fabric to "tell me" what to make. That sounds so mystical, but what I really mean is this: different fabrics lend themselves to different types of clothing pieces by their color, drape, weight, texture, etc., so I really try to make things that suit the fabrics that I have fallen in love with.

### What are your favorite color combinations?

I adore light pink, so most of the fabric I buy is either pink or [a color that] goes well with it. Pink goes so well with brown, light blue, lavender, light green, black... see? It's hard to branch out when I've found such a winner starting color!

# Heat Busters

It's summertime! Even though it's hot, your doll doesn't have to be left inside all day. Follow our helpful tips and use our sweet styles to keep her safe and looking great! *By Lulu; designed by Bella. Clipart from Melonheadz.*

## Hot Weather Tips

### Keep Away from the Heat.

You should **keep heated hair products** {i.e. straighteners, curling irons, hair dryers, etc.} **away from your doll**. Her hair is different than yours, and it won't go back to its natural style after you add heat. Water is the best way to keep your doll's hair from getting tangled!

### The Sun Burns Dolls Too.

We love bringing our dolls on road trips in the car, but we're also **careful to avoid putting them in too much sun**. If you leave them in the car for too long on a hot summer day, the poor doll could be left with serious frizzy hair and softened vinyl {No worries though - it won't melt!}.

### No Oil!

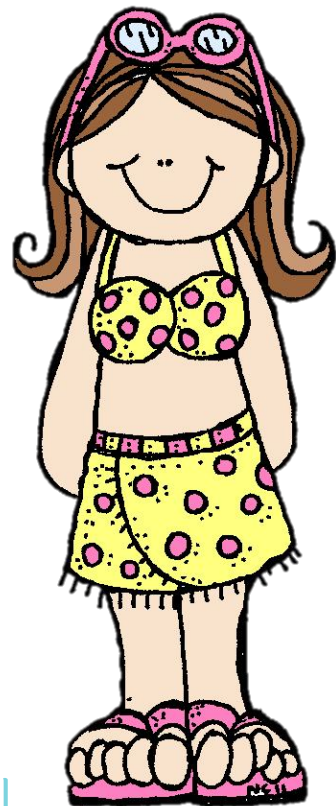

Sure we ALL want to share with our dolls, but **using oil based make-up on her could lead to disastrous results!** The color from the makeup will be absorbed by her vinyl, and she'll be stained. The same goes for hair brushes; the oil from your hair could make your doll's hair fall out, so keep the brushes to yourselves.

### Don't Forget.

If your doll is in need of some **professional TLC**, you can send her to AG's doll hospital or ask an adult for help!

## Doll Eyes and Water are a "No."

As much fun as it is to bring your doll to the beach, **make sure you have her eyes covered with "sunglasses" or a towel whenever you're really close to water**. If it gets in your doll's eyes, they could get damaged or get stuck in one position!

Turn the page for some summer friendly styles!

# Hot Weather Styles

## Messy Top Knot

- First, pull your doll's hair into a ponytail on the top of her head.
- Twist your doll's hair into a bun, and secure with elastics.
  - Pin down any stray hairs or use a damp washcloth.

## French Braid Twist

- Start by French braiding half of your doll's head until you reach the end. Secure with an elastic.
- Repeat on the other side.
- Twist the two braids together and tie off with an elastic.

## Braided Loop Bun

- Start by twisting your doll's hair into two pigtails.
- Braid each pigtail.
- Tie off the ends of the two braids together with an elastic.
- Pin the attached braids to the top of your doll's head.
- Secure any loose hair with water or bobby pins.

## MAKE THE *net*

- Start by cutting two pieces of netting a few inches longer than your desired width.
- Cut two dowels about 28 inches tall.
- Loop the end of one piece of netting around a dowel and secure with glue.
- Repeat with the other dowel.
- Do the same with the other piece of netting.

## MAKE THE *ball*

- To start, you'll need a Styrofoam ball or a small sports ball, such as a tennis ball.
- Cut strips of white felt of all different lengths.
- Glue the strips across the ball using hot glue or craft glue, letting each strip dry before applying the next.

# *bump* SET SPIKE!

What's a better way to spend a summer afternoon than a match of volleyball? Easily adaptable, these crafts will have your doll a volleyball star in no time.

# food for the FOURTH

Cookouts are an essential part of summer, so let your doll join in on the fun. Whip up these festive dishes to celebrate the Fourth of July!

*Written and photographed by Bella.*

## tasty COLESLAW

1. Measure your "serving dish," and cut thick white craft foam to fit inside. Test and adjust as needed.
2. Cut out thin one to two centimeter long pieces of green, orange, and yellow tissue paper.
3. Spread a layer of hot glue or craft glue on the foam and put down the tissue paper pieces. Add glue and more tissue papers for a layered effect.
4. Cut out small squares of purple felt and dab hot glue on them. Add to dish.

## flag CAKE

1. Cut out a 3.25 by 4.5 inch rectangle from tan craft foam. Cut out two 0.75 by 4.5 and two 0.75 by 3.25 inch rectangles from the foam for the border.
2. Cut out a 1.5 inch square from blue craft foam. For the stripes, cut out two red and two white rectangles {about 0.5 by 3 inches} and two red and one white rectangles {about 0.5 by 4.5 inches} from respective foam.
3. Arrange blue square and stripes on the largest rectangle. Glue.
4. For the stars, glue down a grid of mini white pom-poms on the blue square.
5. Use hot glue to stick together the border and the top of the cake.
6. Finally, glue white yarn around the edge of the top for frosting.

## classic BURGER

1. Cut out four 1 and 5/8 inch wide circles of tan felt.
2. On one circle, use light beige thread to sew "seeds" on the bun.
3. Take another circle, and use tan thread to sew the two circles together, adding cotton stuffing before finishing the knot. Repeat with the other circles.
4. For the burger, cut out two matching circles with wavy borders on brown sticky felt. Stick them together.
5. Make desired toppings from other colors of foam and felt. Use hot glue to assemble burger.

DM: Kanani, we know you love your home of the Hawaiian island, Kaua'i. What's your life like there?

*Kanani:* I love how beautiful everything is on the island! I'm extra passionate about the wildlife, and I've been working hard to help protect the Hawaiian Monk Seal. I also love all the beaches, especially because I get to practice my paddle boarding whenever I want!

DM: It's clear to us that you value your family. What's your relationship like with them?

*Kanani:* We're very close, and we try to reconnect at our family reunions. My cousin Rachel comes to visit often; although she felt a little homesick on her first visit, by the end of the summer, we had many fun adventures to remember! She and I always manage to have plenty of fun.

DM: We've heard that you help out at your family's shaved ice shop - what's that like?

*Kanani:* It's not always fun, but I love to come up with new combinations of flavors. Just giving a customer an extra tasty cone of shaved ice can brighten your day!

DM: What's something extra special about living in Hawaii?

*Kanani:* There are SO many things I could say, but I think it's awesome how every one is welcoming and caring. You might be invited to join in a luau even when you're just walking by!

## LEARN SOME HAWAIIAN

- Aloha / Hello, good-bye, and love.
- Luau / A celebration with foods, music, and dancing.
- 'Ohana / Family

DM: Thank you so much, Kanani! Any parting words for our readers?

*Kanani:* Have an amazing summer, and start each day with the aloha spirit!

Those are words of wisdom we're sure to follow this summer!

# MAKE IT move

Your dolls can come to life in stop-motion animation movies! With our easy step-by-step guide, you too can become a stop-motion expert.

BY LULU / MODELED BY THE EVER AFTER HIGH DOLLS

## Step 1: plan

We started our summer movie by planning the many elements involved! First, you will want to figure out a theme. Obviously, we ended up with summer, but there's plenty of options! {Think of hobbies, holidays, books, and movies for inspiration}.

Next we chose our models: Lulu's collection of Ever After High Dolls! We prefer smaller dolls with more articulation because it makes the movements look more realistic. It was now time to get to work!

## Step 2: costumes

Once we had a plan set, we made costumes for our stars. For this video, we made outfits that match each other; they also add to the theme. Along with the additions of ribbon, sparkles, and lots of other fun craft supplies, these costumes allow our video stars to shine. Don't forget the fun hairstyles!

If you make an animation, we would love to see it! Email us at [dollmagblog@gmail.com](mailto:dollmagblog@gmail.com).

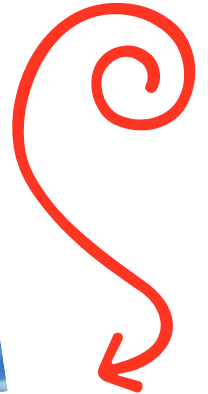

# Step 3: sets

To finish off the design of your animation, add a great set! It can be as simple as a background of bright scrapbook paper or as complicated as an abundance of accessories and toys. Make sure you test out your set with the height of your camera to ensure no important details are left out while filming.

# Step 4: filming

Animation movies are just a series of pictures. If you want a doll to be waving, move her hand a little, snap a picture, move it a little again, take another picture, and so on. For our animation, we used lots of hand movements and spins to show off the cute costumes. Make sure you keep the camera grounded on a tri-pod or a cardboard box!

# Step 5: put it together

Make the pictures into a video using a computer program or app like iMovie. If you don't have access to one of those, you can use Power Point as well {It's our option for everything}. Don't forget to top it all off with some cool tunes!

see the finished video on our blog, as part of our month long B-day celebration!

# A Dollightful BIRTHDAY

Doll Mag's birthday would be nothing without a proper celebration! Your votes determined our birthday party theme – Secret Garden; here's the final result.

*By Bella and Lulu. Modeled by Cece, Gabby, Josie, Hannah, Ruthie, Sally, and Isabella*

## MAKE THE *skirts*

Start by cutting a piece of ribbon long enough to be tied around your doll's waist. Attach a fake flower to the ribbon with hot glue or fabric glue. Cut a strip of tulle that is about 8 inches long and tightly tie it onto the ribbon. Keep tying strips of tulle close to each other until you've covered the entire length of the ribbon. Tie it onto your doll like an apron.

## MAKE THE *archway*

Learn how to make *tissue paper flowers* later this month on the Doll Mag blog!

Begin by cutting two fifty inch long pieces of floral wire {please use caution and have an adult around to help!}. Bend them in identical archway shapes. Connect them using short pieces of stem wire, again using adult assistance as needed. Tie the two wires together at the bottom with ribbon. For stability, place the wires in small jars so that they can stand. To decorate the archway, use pipe cleaners to attach tissue paper flowers to the top.

## MAKE THE

## *goodie bags*

Make labels for each invited guest and glue them to small gift bags. Add decorations, such as flower stickers. Finish off by stuffing the bag with tissue paper and plenty of goodies.
